

NAME : DOM

STYLE : Pop – Rock

DOM's pop-rock language came from more than 20 years of musical passion. At his youngest age, he played classical piano and then turned himself rapidly to pop-rock music, working with various artists and bands as a composer, multi-instrumentalist, arranger or leader.

Since beginning of 2007, DOM worked on his first solo project as singer / songwriter. He follows a proven formula offering pop-rock songs with its classical raw elements : crisp guitars, strong bass and groovy drums topped with melodic vocals and catchy hooks delivering a very personal atmosphere.

For his solo project, DOM also co-wrote songs with lyricists and composers in Switzerland, Canada and USA through a Songwriter Internet community (www.songu.com).

Power and smoothness, warmth and punch, tensions and reliefs in a pop-rock package ... the best thing to do, finally, is to listen to DOM's music and lyrics.

LINE-UP
